Professional Summary

A passionate and adaptable Frontend Developer with 6 months of professional experience in software development and 1 year of experience as a technical trainer in full-stack web development. I am proficient in building responsive and user-friendly web applications using React, JavaScript, HTML, CSS, Bootstrap, Tailwind, Material UI, Redux, and Zod. I also have experience in guiding engineering students remotely and help them build hands-on projects on core frontend technologies. I am also familiar with Backend technologies like Strapi, Java through Spring Boot and SQL. But nevertheless, I am striving to learn more. Currently, I am seeking opportunities as a React Developer, JavaScript Developer, Frontend Developer or UI/UX Developer to contribute to dynamic and impactful products.

Technical Skills

Languages: HTML, CSS, JavaScript, C++ and Java
Frontend Frameworks/Libraries: React, Redux, Tailwind CSS, Material UI and Bootstrap
Backend & Databases: Strapi, SQL, Java(Springboot), and MongoDB
Developer Tools: Git, GitHub, VS Code, Zod
Other: OOPs, Responsive Web Design, REST APIs, UI/UX Principles
Soft Skills: Communication, Problem Solving, Teamwork, Mentorship
